

Decide if the following triangles are congruent using SSS or SAS. If there isn't enough information to decide, write "Not Enough Info." If the triangles are congruent, name the congruency and tell which congruency rule you used.

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

$\triangle ABC \approx$  \_\_\_\_\_

Decide if the following triangles are congruent using ASA, AAS, SSS, or SAS. If there isn't enough information to decide, write "Not Enough Info." If the triangles are congruent, name the congruency and tell which congruency rule you used.

10.

$\triangle ABC \approx$  \_\_\_\_\_

11.

$\triangle ABC \approx$  \_\_\_\_\_

12.

$\triangle ABC \approx$  \_\_\_\_\_

13.

$\triangle ABC \approx$  \_\_\_\_\_

14.

$\triangle ABC \approx$  \_\_\_\_\_

15.

$\triangle ABC \approx$  \_\_\_\_\_

State what additional information is needed to show the triangles are congruent for the reason given.

16. AAS

17. SSS

18. ASA

19. SAS
